**BROWARD COUNTY UNSAFE STRUCTURES BOARD**

To Whom It May Concern:

This board sounds like a position that I would be interested in filling. I have been a resident of Broward County since 1968. I taught in Broward County Schools as a math teacher for 30 years and have been retired from that job for 10.5 years. Since my retirement, I have been doing mostly volunteer work in the community. I currently am a docent at the Main Library. I have also helped with some political campaigns and as a volunteer for the Film Festival. I am active in South Florida Striders and am editor of their newsletter, a volunteer position. I am also outings treasurer for the Broward Sierra Club and an active volunteer with South Broward Wheelers.

I am very interested in Broward County and its environment and also its people. I think the opportunity to serve on the Unsafe Structures Board would fit well with my interests in this County.
