PROPOSED AMENDMENT TO THE BROWARD COUNTY COMPREHENSIVE PLAN

ATTACHMENT A
PROPOSED TRANSPORTATION ELEMENT REVISIONS

Goal 3.0. With an emphasis on public transportation systems, maintain and, where feasible, improve Broward County’s multimodal transportation system that serves local and regional movement of people and goods in a manner that provides for safety and security, convenience, and energy efficiency; that promotes the reduction of greenhouse gas emissions; that coordinates and balances the transportation system with the appropriate land uses, orderly smart growth, development, and sustainability of the environment; that is aesthetically pleasing; that is coordinated with adopted transportation plans, programs, neighboring counties and implementing agencies; that addresses the transportation needs of present and future populations; supports economic vitality; provides mobility choices; and provides for participation in regional transportation coordination. Meeting this goal will involve developing objectives and policies that support the facilities, hubs, and connectors associated with the Strategic Intermodal System (SIS) and those regional arterials and programs qualifying for Transportation Regional Incentive Program (TRIP) funding.

...

ENERGY EFFICIENCY

Objective 3.3. Broward County shall continue to participate in intergovernmental plans and programs that will maintain energy efficiency as well as incorporate transportation strategies to reduce the production of greenhouse gases.

Policy 3.3.1. Broward County shall provide for an energy efficient roadway network and work to reduce greenhouse gases through implementation of, but not limited to, the following programs, activities, or actions:

Policy 3.3.2. Broward County and the MPO shall provide for an energy-efficient public transit network and work to reduce greenhouse gases through implementation of, but not limited to, the following programs, activities, or actions:

...

Policy 3.3.5. Broward County shall provide energy efficient County airports and related facilities and work to reduce greenhouse gases through implementation of, but not limited to, the following programs, activities, or actions:

...

Policy 3.3.7. Broward County shall provide for an energy efficient recreational traffic network and work to reduce greenhouse gases through development of a recreational transportation network plan that focuses on non-motorized vehicles.

Policy 3.5.810. Broward County, in conjunction with the affected municipalities, the MPO, the FDOT, and the SFRTA, shall investigate all Tri-Rail station sites within the County and shall determine the feasibility of establishing, as a demonstration project, development of a transit village master development plan for a specific Tri-Rail station, excluding the Cypress Creek station.

...

**COORDINATION WITH THE BROWARD COUNTY'S URBAN DESIGN ELEMENT
AND THE
COUNTYWIDE COMMUNITY DESIGN GUIDEBOOK**

Objective 3.12 Broward County shall implement the recommendations of the "Broward County Countywide Community Design Guidebook" and objectives and policies of the Urban Design Element which gives priority to context sensitive design solutions (urban design), including the creation of a sense of place and transit/housing oriented development (transit oriented environment), in transportation planning and decision making.

Policy 3.12.1. Broward County shall encourage appropriate densities along transit corridors and maintain and enhance the public infrastructure necessary to support pedestrian and transit oriented development including accessible sidewalks, crosswalks, bridges and public spaces.

...

~~**Objective 3.13.** Broward County shall update the Transportation Element as part of the Second Group of Amendments in 2007 to identify how the following policies will be met.~~

~~**Policy 3.13.1.** Broward County shall adopt the Florida Department of Transportation (FDOT) level of service (LOS) D standard for Strategic Intermodal System (SIS) connectors and address how the LOS on these facilities will be maintained or improved in order to enhance mobility and safety.~~

~~**Policy 3.13.2.** Broward County shall adopt procedures for monitoring, evaluating, and appraising its implementation within timeframes specified including specific and measurable short and long term objectives that are sufficient in providing a basis for evaluating the effectiveness of the Broward County Comprehensive Plan.~~
