April 2010

I, Marguerite Luster, President of Liberty Park Community Assoc, agree with this committee to rename the Family Success Center located at 2011 NW 3rd Avenue, Pompano Beach, FL 33060 to the Annie L. Weaver Health Clinic. We further agree that the renaming of this City owned building is appropriate as Annie L. Weaver was a Pompano Beach activist and humanitarian. We agree that it would be fitting for the community to join with the support of this effort.

The naming and renaming of streets and other public places is recognized as being an integral part of giving honor, this includes, but is not limited to the creation of places that residents and users can relate to and take pride in. The renaming of the building to the Annie L. Weaver Health Clinic is a way of etching into our community's history the numerous contributions and accomplishments this individual has made especially in the area of healthcare.

Respectfully Yours

Marguerite K. Luster (President)
 Signature/Title

"For as long as there has been culture, people have placed a meaning by naming every event they have encountered, be it the birth of a child, climatic conditions, initiation rites, battles, death or any other event that that seems vital to their daily existence. It has been a way of giving life meaning, a way of claiming territory, a way of honoring leaders, a way of giving direction or location, a way of celebrating important events and mourning disastrous events."- South African Geographical Names Council (SAGNC)
