**Commissioner Wexler,**

**After attending the Health Insurance selection committee meeting it quickly became evident that the new enacted ethics laws helped make the process extremely cumbersome. In the past the selection committee had a number of Commissioners on it so policy discussion took place on a regular basis. This is no longer the case. Because of the ethics changes maybe we have to rethink how the selection committee operates. If we don't, the process is going to take too long to complete, one thought maybe to create a policy committee to help advice the committee as to streamline the process.**

**After discussion with you on the day of the health insurance meeting we feel confident that you know exactly how we feel. So feel free to express our opinions to your fellow Commissioners on this issue.**

**Example:**

- **Co- Pays**
- **HRA'S**
- **Any additional costs for smoking or non- biometric participation**
- **Continuation of no cost maintenance drugs associated with the biometric screening**

**Thank you for your hard work and concern on this issue.**
