Background:

CPL is a T20 professional cricket league and has been in place since 2013. It comprises of 6 franchise teams, that will be expanded in the coming years as the league expands. CPL is currently considering options in North America in terms of future franchise partners.

CPL's history at Central Broward Regional Park

In 2016, CPL played 6 games at the County's Central Broward Regional Park. The games were played over a four-day period with two double headers and comprised all six teams.

CPL added to the infrastructure at the park, bringing in lights, erecting a VIP pavilion and ensuring the wicket was of an international standard (It was regarded as the best pitch the teams played on during the tournament). The event was also broadcast live around the world – in total 101 broadcasters took the live feed with a combined audience of 134 million.

CPL also managed all operations – including ticketing, cricket operations, match day operations (including security), ticketing, parking, insurance, permits/licenses , vendor selection and marketing. There was a team of 15 key people that worked on the delivery of the event.

In total 24,596 spectators attended the games and importantly for the local economy -over 40% of those who attended the games came from outside of Florida, with 7% travelling from overseas.

Whilst International matches had been held at the ground before, we are confident in our ability to advise on how to best develop the ground to make it a world class cricket venue over the coming years.

Our marketing for the 2016 event was seen to be very successful – people travelled from across the US to watch the games – all of which had a positive impact on the local economy (Economic impact study is attached)

Our Experience

The team that would manage this contract are well known to Dan West and his staff. We have worked across multiple events, from cricket to music – all major live productions, around the world. We pride ourselves on delivering safe, well managed events that deliver engaging experiences for the fans.

With regards to the CPL, we run 34 matches per season across six different countries in 39 days – logically it is the most challenging tournament to run in the world cricket! CPL has been going for 4 years now.

From a cricketing perspective – We have excellent contacts with all the main cricketing associations, players and agents around the world. We would be able to deliver a range of different cricket tournaments, involving the top teams and players. There is also mention of a franchise team being based at Broward County Park and of course as owners of the league this is something we would look to facilitate. This is an exclusive right and no other entity would be able to offer a local franchise, unless another league is created or CPL gives express permission.

Local cricket development is also a very important part of managing a contract such as this and CPL has already invested \$200,000 in local initiatives via the ICC and would continue to do so. Creating a strong local fan base is something we have been very successful with across all the countries where CPL is played.

Conclusion

We feel we are very well positioned to take on this contract.

Even though there was some suspicion around CPL when discussions first began in terms of hosting the 2016 games, we delivered on every promise we made and ended up with a world class tournament that invigorated the discussion about bringing top class cricket to America.

In 2016, CPL invested over \$1.6m in 4 days of cricket with the intention of making sure it was a memorable occasion for all stakeholders. We delivered on that and believe that we now have the opportunity to consolidate the Central Broward Regional Park as the number one venue for first class cricket in America.

A ECONOMIC RETURN ON INVESTMENT MEDIA VALUE -METHODLOGY

Once the brand exposure of the tourist boards has been ascertained, SMG Insight has applied an industry standard advertising rate on a broadcaster by broadcaster, market by market basis using the following formula:

$$\text{GROSS ADVERTISING VALUE} = \frac{\text{30 SECOND ADVERTISING RATE}}{30} \times \frac{\text{SECONDS OF BRAND EXPOSURE}}{30}$$

Once the Gross Advertising Value has been calculated, the Brand Impact Score methodology is then applied to create the Net Sponsorship Value (outlined below):

Brand impact scoring is calculated in decimal places ranging between 1.0 and 1.5 due to the multiplication of factors needed in order to get the final BIS score. Once this is calculated, it is subtracted by 1 and multiplied by 10, for example the exposure below would have a BIS score of 2.13. Brand impact scoring is measured on an exposure-by-exposure basis per location and then averaged out across the whole event. Each location has an individual BIS which defines the discount percentage of gross advertising value that equates to the net sponsorship value.

CATEGORY	SUB-CATEGORY	FACTOR
SOLUS	ONLY BRAND ON SCREEN	1.2
	CENTRE 50% OF SCREEN	1.1
LOCATION OF BRAND ON SCREEN	ANYWHERE ELSE	1
	<1%	1
	1-5%	1
	5-10%	1.1
SIZE OF BRAND ON SCREEN	>10%	1.2
	1 SECOND	1
	2-5 SECONDS	1.05
	6-10 SECONDS	1.1
DURATION OF EXPOSURE	>10 SECONDS	1.15
	1	1
	2	1.05
	3	1.1
	4	1.15
MULTIPLE INSTANCES OF BRAND PER FRAME	5	1.2
		1.0 OVER 0.1 [1]

Factor = 1.0
Factor = 1.1
Factor = 1.0
Factor = 1.05
Factor = 1.05
Total Factor = 1.0 x 1.1 x 1.0 x 1.05 x 1.05 = 1.213

Each factor score is then multiplied to create a brand impact score which is directly related to a percentage of gross advertising value. These criteria are as follows:
<1: 5.00% - 17.05% 1-2: 17.05% - 30.29% 2-3: 30.29% - 43.53% 3-4: 43.53% - 56.77% 4-5: 56.77% - 70.00%
