Bid Notes

My team has been working on this as well as myself to review everything. We have made changes and added items, hitting the save button in BidSync, and the items are disappearing. There will be missing items and incorrect information due to this. The original due time was 2pm, but I received an email saying it was now noon, so I have submitted what we have, and will continue to work on these if you can leave it open for me to work on. IF YOU CANNOT KEEP IT OPEN, CAN I REQUEST YOU SEND ME A COPY OF THIS RESPONSE AND I WILL ADD THE MISSING INFORMATION. I want to ensure you have all information needed to make an informed decision. Thanks

Thank you for the opportunity to participate in your bid process. We have provided all of the additional information needed online as well as the item bidding. I would like to request a live meeting to review the results of the bid. As with any electronic information, there is much left to interpretation...so I feel it would be helpful for you in this process to have a Q & A session. This is a very big move for your organization so we feel it important to review the RFP with your leadership team before you move forward.

As with all business, expenses and product costs are important...GFS is committed to supporting BARC in achieving the financial goals for your organization. We will commit time up front to sit down with your staff to optimize your item lists, order guides...to make sure you have access to the most competitive item for the proper usage.

We will also support your culinary/dietary leadership team in planning out in-service training programs for the staff. We will commit our dietitian to perform a fresh eyes audit of your operation to evaluate potential cost saving opportunities or other "hot topics" that State inspectors may be looking for. We can also support the departments mission for quality outcomes through care plans, food first...At GFS, we believe that have competitive pricing is only part of the partnership with our customers...we want to engage with your organization to work towards driving costs out of the operation and improving efficiencies. We are hopeful that our team can build a strong partnership with BARC.

To reference some items on the bid...In some cases there were other lower cost options, with this as your spec, that's what we bid. We tried to go back and bid on a less expensive option, we bid out items with the manf's requested, however after those initial pages, we went with the most competitive item, but still able to hold up quality wise. We will evaluate all items & provide a separate list of cost saving items if allowed.

IN REVIEWING THE DOCUMENT, MUCH OF THE ITEM INFORMATION THAT WAS INPUT TOWARDS THE FINAL PAGES, DID NOT SAVE. I ATTEMPTED TO ADD IT BACK IN, BUT RAN OUT OF TIME UP AGAINST THE DUE DATE/TIME.
