JM17 - 030 REVISED

TO:

Deputy Port Director Glenn Wiltshire

Port Everglades

FROM:

Captain Jeffrey Morse, Port Everglades

Bureau of Operations - Regional Services

SUBJECT:

LETF FUNDS

BSO Port Everglades is requesting approval to transfer funds from the Law Enforcement Trust Fund (LETF) funds into the District's Capital Fund (23250-42250) for FY18. Attached is a copy of the LETF Sharing Program Recap (dated May 17, 2017) which shows \$272,963 is currently available.

Once the LETF funds are transferred into the District's operating budget, it will be allocated strictly to the one-time expenses for the implementation of the Body Worn Camera Program (BWC) for Port Everglades law enforcement.

The BWC implementation will include:

57 Body Camera Kits (49 deputies, 7 sergeants and 1 road patrol lieutenant) \$28,500
IT Hardware (see diagram attached) \$12,093
BWC Room Build-Out (see Mills Electric estimate attached)
BWC Room Build-Out (see ARM Electrical estimate attached)

Your consideration of this request is appreciated.

Mr. Steven M. Cernak Chief Executive & Port Director Port Everglades 1850 Eller Drive Fort Lauderdale, FL 33316

Re: Body Worn Camera Program

Dear Mr. Cernak:

BSO is pleased to announce that we have entered into a contract with Taser International and are moving forward with the implementation of our Body Worn Camera (BWC) Program. I would like to outline both the Capital and Operating costs associated with the program and memorialize the roles and responsibilities of BSO and those of Port Everglades. The costs for the program are as follows:

Capital:

ltem	Total		
Body Camera Kit \$500 per deputy x 57	\$28,500		
IT Hardware (See Appendix 1)	\$12,093		
BWC Room build-out	TBD / Port Responsible		

Each Capital line item is a one-time expense and subject to the utilization of Law Enforcement Trust funds, if the city elects to do so.

Operating (annual):

<u>Item</u>	Total
Storage, hardware, support & personnel \$880 x 57	\$50,160
IT Hardware Maintenance & Data Circuit	\$24,967.28

Each Operating line item is an annual expense and may require a modification or amendment to an existing agreement. The initial cost is based on an Oct 1, 2016 implementation, operating expenses will be prorated based on the implementation date.

Roles and Responsibilities

- The rollout of body cameras is a complex process that will be managed by BSO.
- For cameras to be fully deployed, the Port Everglades' district office must have a completed body camera room with the necessary IT infrastructure to support the data transfer to Evidence.com.
- The construction costs for the body camera room will be the responsibility of Port Everglades. BSO met with Port Everglades command and provided construction, security recommendations and specifications, to include all data and power requirements for the docking stations.
- BSO will make arrangements for the AT&T data circuit to be brought to the building, and will immediately advise the city if AT&T must perform any digging and/or pull conduit from the street.
- BSO will order the required IT hardware and the associated costs will be reimbursed by Port Everglades.
- BSO will install, configure and support all IT and BWC hardware associated with the BWC project at no additional cost.
- Upon completion of the BWC room within the Port Everglades district office, BSO will train and deploy cameras for district personnel.

Upon your review of this letter, please respond back to me via email at Jonathan_appel@sheriff.org reference this correspondence by May 15, 2017 confirming the port's intention to support and move forward with a BWC implementation within Port Everglades.

We appreciate the continued partnership with the Port to deliver the finest public safety service to the residents and visitors to Broward County. If I can answer any questions, or further expand upon the BWC implementation please feel free to contact me at 954-321-4758.

Sincerety
