To Whom It May Concern,

I purchased my home (my 2nd home purchase in Broward County) at 3250 SW 12th ave Ft. Lauderdale Florida 33315 approximately 2 years ago. I am a Firefighter/Paramedic for The Broward Sheriff's Office and I specifically and intentionally chose this house to turn into my home for the simple fact that I believed in THIS neighborhood and its future potential. Edgewood is the last semi-affordable neighborhood east of 95 in Broward county and it's imperative that we as a community keep it that way. A family friendly neighborhood with beautiful tree lined streets. A neighborhood where we can raise our children. We do not want any more industrial structures and their associated vehicles here. Would you want this proposal put directly across the street from your house? I implore you to please consider other options. Edgewood is unique in its family friendly atmosphere. Please do not let my kids grow up staring at a logistical center or more cement warehouses that attract vagrants and derelicts as soon as the sun sets. I thank you in advance for your attention
