

FY2018 EMS Project Summaries**22nd Annual First There First Care EMS Conference:**

Funding Requested- \$50,000.00

Funding Recommended- \$40,000.00

The First There First Care EMS Conference provides innovative EMS education to over 500 EMS and Nursing professionals working in pre-hospital and Emergency Department settings. It allows the opportunity for networking, trend and treatment tracking, and provides the EMS and Nursing professionals continuing education credits to ensure that Broward County residents are receiving the best care possible.

Stop the Bleed

Funding Requested- \$141,000.00

Funding Recommended- \$73,083.00

Stop the Bleed is intended to educate, equip, empower, and encourage bystanders to help in a bleeding emergency. Similar to the public awareness campaigns encouraging bystander CPR and AED training, Stop the Bleed will equip public areas with the tools needed to provide lifesaving steps to stop or slow uncontrolled bleeding in the event of a mass casualty event or other emergency regarding active bleeding.

PulsePoint Broward

Funding Requested- \$28,000.00

Funding Recommended- \$28,000.00

PulsePoint is intended to increase the survivability rate in individuals who suffer a sudden cardiac arrest event. When emergency dispatch receives a sudden cardiac arrest event call, PulsePoint immediately alerts CPR-trained bystanders in that area and lets them know where the closest location of an AED is. PulsePoint includes EMS reporting software to assist in reporting patient outcomes and bystander response.

Prehospital Trauma Life Support

Funding Requested- \$17,580.00

Funding Recommended- \$0

Prehospital Trauma Life Support (PHTLS) is intended to provide training to the Coral Springs Fire Department personnel to increase and enhance prehospital skills for trauma related injuries. This would develop a core of instructors that would assist in maintaining the PHTLS program which would be offered to other County EMS agencies.

Power Load, Power XPS Stretcher

Funding Requested- \$39,000.00

Funding Recommended- \$0

The Power Load, Power XPS Stretcher project is intended to provide Lauderhill Fire Rescue with a power cot and loading system to cut the risk of serious injury to EMS personnel and improve patient safety.
