SUBMITTED AT THE REQUEST OF

COMMISSIONER MICHAEL UDINE

Good afternoon.

The item mentioned above is a Resolution by the County Commission to do an eminent domain "quick taking" of the piece of property on the Tuttle site for the E911 tower needed for the countywide system. All of the back up is on line and provides information as to why this site is optimal for the Parkland location and why none of the other potential sites make sense.

I know most, if not all, of you have publicly stated that this is the site you would prefer as opposed to others within the City boundaries.

I concur and will be voting to approve the Resolution.

If there are any questions or concerns please reach out to me prior to the meeting so we can discuss. My goal is that we are on the same page with the City on this site and issue.

Thanks.

Hello Commissioner -

Thank you for your email. I have no objection to Broward County conducting an eminent domain "quick taking" of the piece of property on the Tuttle site for the E911 tower needed for the countywide system. Upon review of the back up it is apparent that the public safety of Parkland residents and first responders will be improved with the installation of the proposed tower site, as it will provide greatly improved radio signal coverage to first-responder agencies operating in this area. I also agree that none of the other potential sites make sense.

Sincerely,
