**RE: BROWARD COUNTY WATER & WASTEWATER SERVICES  
PROJECT NO. 100916 (9197), NRWTP STRUCTURAL STEEL  
REPLACEMENT, RLI# R1007403R1  
NOTICE OF INTENT TO TERMINATE AGREEMENT**

Mr. Nanayakkara:

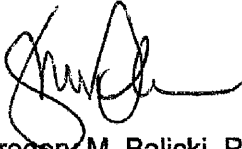

Pursuant to Lakdas/Yohalem Engineering, Inc.'s (LYE) agreement with Broward County, the contractually final completion date for Phase 1 – Belt Filter Press Demolition was December 29, 2013. At the request of LYE, the final completion was extended 120 days by the Contract Administrator, making the new final completion date April 15, 2014. LYE failed to complete the scope of work by the adjusted final completion date as outlined in Exhibit A of the agreement.

On February 23, 2016, Water & Wastewater staff met with representatives of LYE and AECOM to discuss the shortcomings of the work product produced by LYE for the Belt Filter Press project. The County graciously provided LYE with an additional two (2) weeks to cure and comply with the required project deliverables inclusive of a true 100% set of plans and specifications. LYE produced a second set of 100% plans and specifications within the specified timeframe, however, the submittal was determined by staff and an impartial consultant to contain numerous errors and inconsistencies.

Despite the County's considerable patience, LYE has not made a concerted effort to complete the original scope of work and has also failed to address substandard work when given the opportunity to cure. These failures by LYE illustrate a clear default on the project. Therefore, pursuant Section 10.2 of the agreement, this letter serves as notice of the County's intent to terminate the aforementioned agreement for cause.

Should you require any additional information, please contact me at (954) 831-0903 or via email at [gbalicki@broward.org](mailto:gbalicki@broward.org).

Sincerely,

Gregory M. Balicki, P.E., Director  
Water & Wastewater Engineering Division
