MEMORANDUM

TO: Board of County Commissioners

FROM: Andrew J. Meyers, County Attorney 

DATE: August 13, 2018

RE: **Request for Continuation of Item 86 on the August 14, 2018, Public Hearing Agenda**

Item 86 is comprised of a proposed ordinance and resolution addressing required notice in connection with zoning actions affecting solid waste disposal facilities and notice in connection with the granting of licenses and permits for solid waste disposal facilities and certain other facilities. I recommend a continuation of the public hearing until September 13 to allow additional internal review and the opportunity for County staff to consider additional public input in connection with a portion of the proposed resolution that would remove an exception to notice requirements for license renewal applications that do not seek any material change to the use of the facility or the underlying licensed or permitted activity.

In order to avoid the expense of readvertising the public hearing, I recommend that the public hearing of this item be opened and then continued (through approval of a motion to continue) to September 13. Please call or e-mail me with any questions or concerns.
