SECTION II
AMENDMENT REPORT
PROPOSED AMENDMENT PCNRM 18-1

INTRODUCTORY INFORMATION/PLANNING ANALYSIS

Pursuant to Policy 2.22.3 of the BrowardNext - Broward County Land Use Plan, the Broward County Environmental Protection and Growth Management Department (EPGMD) is required to update the Natural Resource Map Series - Eastern Broward County Wetlands Map every other year. The proposed revisions are based on actions that the EPGMD staff has taken from January 1, 2016 through December 31, 2017. Those actions include observing or delineating wetlands on a parcel, issuing an Environmental Resource License which formally identifies wetlands or removing wetlands that are no longer environmentally significant. These actions resulted in the addition of 102.5 acres and the removal of 133.9 acres. The removal of acreage is a result of an updated database and GIS information related to wetland parcels. Attachment 1 provides a detailed listing of the proposed additions and deletions. Attachment 2 depicts the revised Broward County Wetlands Map.
