STAFF RECOMMENDATION

Environmental Protection and Growth Management Department (EPGMD):

1. Staff Recommendation: The Broward County EPGMD, Planning and Development Management Division (PDMD) recommends that the Board of County Commissioners adopt the proposed ordinance.

When deciding whether to approve or deny a proposed rezoning application, the Broward County Zoning Code requires the Board of County Commissioners to consider the six criteria detailed in the data and analysis section of this staff report, as well as the recommendation of staff, testimony of the applicant, and testimony the public. Based upon an analysis of the six criteria, staff finds the proposed rezoning:

- corrects an inconsistency between the zoning district and the future land use designation depicted on the Future Unincorporated Area Land Use Element Map Series and the Future Broward County Land Use Plan Map;
- allows infill development;
- establishes consistency with the goals, objectives and policies of the Broward County Comprehensive Plan and Broward County Land Use Plan;
- establishes consistency with the densities, intensities, and general uses set forth in the Broward County Comprehensive and Land Use plans, and their associated future land use maps;

- does not negatively impact environmentally critical or natural resources;
- does not unduly burden existing infrastructure and capacity exists to accommodate development consistent with proposed zoning district;
- establishes compatibility with the existing conforming uses, as well as proposed uses in the general vicinity.

2. Local Planning Agency Recommendation: At its November 15, 2018 meeting, the Local Planning Agency (LPA) found the proposed zoning map amendment consistent with the Broward County Comprehensive Plan and recommended the Board of County Commissioners adopt the proposed amendment. This meeting was noticed through a sign posted on the property, newspaper advertisement, and mailed notice to property owners within 300 feet of the proposed amendment site in accordance with the requirements of Chapter 125, Florida Statutes and Section 39-27.-Notices of public hearing, Broward County Code of Ordinances.

DESCRIPTION OF AMENDMENT

The subject amendment site is a single parcel. The southern portion is occupied by one single-family house and the remainder is undeveloped. The site has two zoning districts. The northern portion is S-1 and the southern portion is RS-3. The applicant proposes to change the northern portion to RS-5. The southern portion would remain RS-3.

DATA & ANALYSIS

- 1. Ambiguity/Error:** The site is occupied by one single-family house. Both the Broward County Land Use Plan's Future Land Use Map and the Future Unincorporated Area Land Use Element Map Series designate the site for Low (5) Residential. Two zoning districts are assigned to the site, including the S-1 Open Space Recreation and RS-3 One-family Detached Dwelling zoning districts. The S-1 zoning district is generally applied to private recreational sites that are occupied by profit-generating enterprises, such as golf driving ranges, archery ranges, and country clubs. Staff does not have evidence that this site was ever occupied by a private recreational use. While the S-1 zoning district is consistent with the Low (5) Residential future land use designations on the site, staff finds that the S-1 zoning district could be corrected.
- 2. Changing Conditions:** The Broward County Land Use Plan and the corresponding Future Land Use Map were recently reviewed. During the review process, the site was not recommended for change on either the Broward County Land Use Plan's Future Land Use Map or the Future Unincorporated Area Land Use Element Map. Staff finds that the site is located within a long-established, low-density residential community that is not appropriate for a profit-generating, private recreational enterprise that would be allowed by the current S-1 zoning district.
- 3. Plan Consistency:**
 - a. Planned Uses:** The proposed rezoning is consistent with the Future Unincorporated Area Land Use Element Map Series and the Broward County Land Use Plan Future Land Use Map. Specifically, the request is consistent with the following Future Unincorporated Area Land Use Element (FUALUE) and Broward County Land Use Plan (BCLUP) policies:
 - **FUALUE Policy 2.10.22:** The PRD shall review applications for plats, rezonings, and site plan for compliance with the future land use designations on the FUALUEMS.

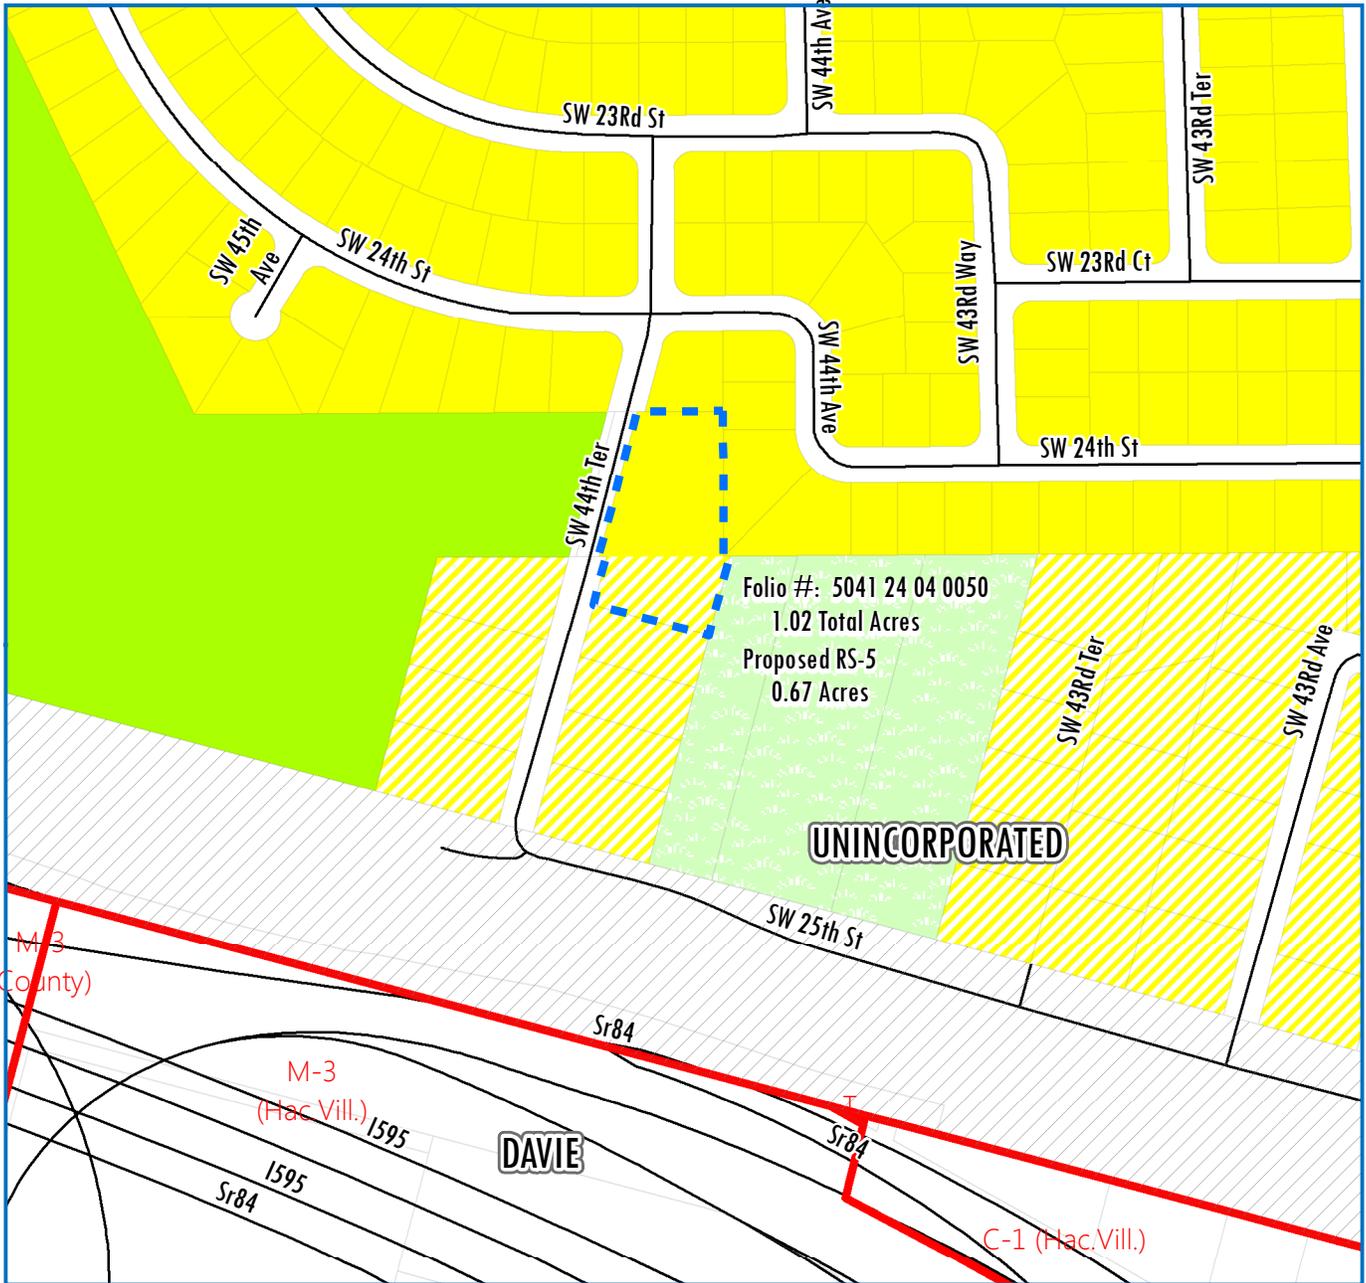

- **BCLUP POLICY 2.1.2:** The land use categories depicted on the Broward County Land Use Plan Map are intended to protect established residential areas and encourage economic development and redevelopment.
 - **BCLUP POLICY 2.2.1:** Residential areas shall be designated on the Broward County Land Use Plan Map consistent with those categories identified within the Residential Permitted Uses subsection of the Broward County Land Use Plan. The categories indicate the maximum number of dwelling units per gross acre permitted by the Broward County Land Use Plan.
- b. **Existing Uses:** The proposed amendment site is adjacent to low-density, single-family residential uses on the north, east, and south and recreation and open space use on the west. The proposed RS-5 zoning district allows residential development that is comparable to the adjacent single-family uses in terms of density, intensity, and scale.
- 4. Environmental/Natural Resources:** The proposed rezoning is consistent with the surrounding existing and planned land use pattern and is located within a fully developed neighborhood that is served by the full complement of urban services. Development consistent with the proposed rezoning is not expected harm environmentally critical areas and natural resources.
- 5. Infrastructure:** The proposed rezoning site is served by the full complement of urban services and is consistent with both the FUALUEMS and the BCLUP; therefore, it is not expected to generate an increased demand on existing infrastructure. The application for site plan approval will be reviewed in accordance with the Broward County Code of Ordinances, Article IX.-Broward County Land Development Code, Division 1.-General Provisions, Section 5-181.-Development review procedures, (b) Agency Review. Concurrency requirements and any related fees will be assessed during site plan review.
- 6. Compatibility:** The proposed amendment site is adjacent to low-density, single-family residential uses on the north, east, and south and recreation and open space use on the west. The proposed RS-5 zoning district allows residential development that is comparable to the adjacent single-family uses in terms of density, intensity, and scale.

Attendees

Attachment A is the attendee sign-in sheet.

1. Call to Order

Angela Chin called the public hearing to order at 11:00 am and requested self-introductions of staff and Local Planning Agency members. Ms. Cunniff presented proof that the public hearing was noticed through a sign posted on the property, newspaper advertisement, and mailed notice to property owners within 300 feet.

2. Public Comments

No comments were made on any non-agenda item.

3. Broward County Zoning Code Map Amendment-18-Z-7

Heather Cunniff gave a brief staff presentation. The application involves an approximately 0.66-acre site located within the Broadview Park neighborhood. The proposed rezoning would change the zoning district from S-1: Open Space and Recreation to RS-5: Single-family Dwelling District with a density of five (5) dwelling units per acre. The site is currently occupied by one single-family house. Ms. Cunniff noted that development allowed by the proposed amendment is consistent with the surrounding area in terms of density, intensity, and scale. Ms. Cunniff further noted that the proposed rezoning meets the following criteria that must be considered as part of the review of a proposed rezoning:

- a. corrects an ambiguity/error;
- b. responds to changing conditions;
- c. establishes consistency with the Broward County Comprehensive Plan and nearby existing and planned uses;
- d. impacts environmental/natural resources;
- e. impacts infrastructure;
- f. provides compatibility with surrounding land uses.

Staff recommends the LPA find the proposed zoning map amendment consistent with the Broward County Comprehensive Plan and forward it to the Broward County Board of County Commissioners for consideration.

Ms. Chin requested comments from the public. A member of the public requested the amendment be explained in layman's terms. Ms. Cunniff remarked the amendment allows the development of single-family homes and it will not be known what the homes will look like until a site plan application is filed. A member of the public commented about a previous development that proposed an eco-lodge that consisted of dome shaped buildings. Ms. Chin commented that the application just changes the allowed use of the property to allow single-family detached dwellings.

Attachment B includes a petition from nearby neighbors that oppose the amendment. It was signed by 35 residents from 14 households.

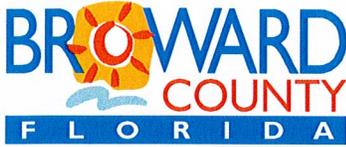

Geil Bilu, the applicant's attorney, noted agreement with staff's recommendation and commended staff for their work on the application. The applicant, Orit Beilis, noted her intent to build a project that is supported by the community.

Motion: Upon a motion by Sue Carrano, seconded by Jill Horwitz, and unanimously approved, the LPA made a finding that the proposed rezoning is consistent with the Broward County Comprehensive Plan and forwarded it to Broward County Board of County Commissioners for consideration.

4. Adjourn

Motion: Upon a motion by Mr. Sofoul, seconded by Ms. Carrano, and unanimously approved, the meeting adjourned at 11:21am.

Disclosure: The above captioned minutes are transcribed in a summary format. To obtain a complete audio recording of the meeting, approved summary minutes, or any presentation or handout materials, submit a public records request through Planning and Development Management Division, 954-357-8695.
