Good Afternoon,

Thank you for submitting your project requests for the FWC Gopher Tortoise Habitat Management Assistance Funding Program. You are receiving this email because your project has been approved for funding for FY 2018-19. All projects chosen to receive funding are being funded at the amount requested.

Please remember that work may not begin on the project until the MyFloridaMarketplace purchase order has been created and all project managers have participated in a short conference call to discuss project procedures. I will begin processing purchase orders this week and will schedule the conference call once the purchase orders have been created.

If you submitted applications for multiple projects, you will receive a follow-up email with additional information.

Please let me know if you have any questions.

Thank you,

Alex Kalfin
