The right of access shall not be limited to the required retention period but shall last as long as the records are retained.

FDLE reserves the right to unilaterally terminate this Agreement if the Subrecipient, its implementing agency, or its contractor(s) refuses to allow public access to all documents, papers, letters, or other materials which are subject to the public record provisions of Chapter 119, Florida Statutes.

Final reimbursement requests must be received by FDLE no later than 30 days after the end date of the FY2018 Coverdell Forensic Science Improvement Grant award period. Reimbursement requests received more than 30 days after the end of the award period may be denied for payment. As the grantee, the FDLE reserves the right to reallocate unused funding in order to maximize the federal award. Detailed spending plans will be required of all sub-recipients who show no project activity by June 30th.

Deliverables/Scope of Work. The Subrecipient must meet the requirements of quantifiable units of “deliverables” and “scope of work” as identified in the approved budget for the subgrant award to the Subrecipient that serve to reduce analysis time of forensic cases submitted to crime laboratories and aid in the reduction of Florida’s backlog. All deliverables and project scope must align with the goals and requirements of the FY18 Solicitation: Paul Coverdell Forensic Science Improvement Grant Program, and Florida law (e.g., Section 215.971, Florida Statutes (2010)).

Reporting Requirements/Performance Measures.

Semi-annual reports. The Subrecipient agrees to comply with performance measure reporting requirements as outlined in the FY2018 Coverdell Forensic Science Improvement Grant and pursuant to the requirements of DOJ/OJP/NIJ and FDLE. Performance measure documentation must be submitted to FDLE within fifteen (15) days of the completion of the semi-annual reporting period.

Annual Report. The Subrecipient will also report to FDLE the following information related to the Subrecipient's Certification as to External Investigations (Per 42 U.S.C Section 3797k(4) regarding independent external investigations into allegations of serious negligence or misconduct by employees or contactors) on an annual basis: 1) the number and nature of any such allegations about the Subrecipient which are known to the Subrecipient; 2) information on the referrals of such allegations (e.g., the government entity or entities to which referred, the date of referral); 3) the outcome of such referrals (if known as of the date of the report); and 4) if any such allegations were not referred, the reason(s) for the non-referral.

The Subrecipient's report on external investigation allegations must be submitted to FDLE within fifteen (15) days of request.

Final report. The Subrecipient shall submit a final report to FDLE that (1) includes a summary and assessment of the program carried out with the Grant funds, (2) identifies the number and type of cases accepted during the Grant award period by the forensic laboratory or laboratories that received the Grant funds, and (3) cites the specific improvements in the quality and/or timeliness of forensic science and medical examiner services (including any reduction in forensic analysis backlog) that occurred as a direct result of the Grant funds.

The Subrecipient's final report is due no later than 30 days following the close of the award period or the expiration of any extension periods.

Penalties for untimely submissions or failure to provide required reports/information. Payments to the Subrecipient (including payments under future awards) may be withheld, or other related requirements may be imposed, if required information and reports are not submitted within the specified time periods.

Audit and Monitoring. As noted above, the Subrecipient agrees to comply with relevant provisions of the organizational audit requirements of the current version of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and understands and agrees that funds may be withheld, or other related requirements may be imposed, if any outstanding audit issues from OMB Circular A-133 audits (and any other audits of OJP grant funds) are not satisfactorily and promptly addressed.

Audit Thresholds (OMB A-133): If the Subrecipient expends \$500,000 or more in Federal funds (from all sources including pass-through subawards) in the organization fiscal year (12-month turnaround reporting period), the Subrecipient shall have a single organization-wide audit conducted in accordance with OMB Circular A-133. If the Subrecipient expends less than \$500,000 a year in Federal funds, the Subrecipient is exempt from Federal audit requirements for that year; however, the Subrecipient must make records available for review or audit by appropriate officials including the Federal agency/agencies which provided the federal funds, the pass-through entity/entities (FDLE for this Agreement), and the federal General Accounting Office.

Failure to have the above-referenced audits performed as required will result in the withholding of new discretionary awards and/or withholding of funds or change in the method of payment on active awards. Known or suspected violations of any law encountered during the Subrecipient's audits, including fraud, theft, embezzlement, forgery, or other serious irregularities, must be communicated to FDLE and DOJ/OJP. Addresses for audit reporting packages: Copies of reporting packages for audits conducted in accordance with OMB Circular A-133, and related to this agreement shall be submitted, when required by Section .320 (d) and (e), OMB Circular A-133, by or on behalf of the Subrecipient directly to each of the following:

1. The Florida Department of Law Enforcement at each of the following addresses:
 Florida Department of Law Enforcement
 Investigations & Forensic Science Program
 Office of Policy and Planning
 P. O. Box 1489
 Tallahassee, FL 32302

2. The Federal Audit Clearinghouse designated in OMB Circular A-133 (the number of copies required by Sections .320 (d)(1) and (2), OMB Circular A-133) should be submitted to the Federal Audit Clearinghouse, at the following address:

Bureau of the Census
1201 East 10th Street

Other Federal agencies and pass-through entities in accordance with Sections .320 (e) and (f), OMB Circular A-133.

Additional monitoring/assessment: Additional monitoring of the Subrecipient may include, but are not limited to, inspections, reviews, investigations, audits, or on-site visits by FDLE, the Chief Financial Officer (CFO) or the Auditor General of the State of Florida. The Subrecipient will comply and cooperate with all such monitoring activities.

Pursuant to DOJ requirements, the Subrecipient agrees to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

Reporting Irregularities. The Subrecipient shall promptly notify FDLE, DOJ/OJP, and the Federal cognizant audit agency of any illegal acts, irregularities and/or proposed and actual actions regarding the Grant funds. Illegal acts and irregularities include conflicts of interest, falsification of records or reports, and misappropriation of funds or other assets. The Subrecipient should promptly refer to FDLE and to the DOJ/Office of Inspector General (OIG) any allegation and/or credible evidence that a principal, employee, agent, contractor, subrecipient/subgrantee, subcontractor, or other person has either 1) submitted a false claim for grant funds under the False Claims Act; or 2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct involving grant funds, by contacting DOJ-Office of Chief Financial Officer, Customer Service Branch (CSB), via e-mail ask.ocfo@usdoj.gov or by calling 1-800-458-0786, and/or the Office of the Inspector General (OIG) Mail: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 950 Pennsylvania Avenue, N.W., Room 4706, Washington, DC 20530; E-mail: oig_hotline@usdoj.gov; Hotline: (contact information in English and Spanish): (800) 869-4499 or Hotline Fax: (202) 616-9881.

Environmental Assessment. The Subrecipient agrees to comply with all Federal, State, and local environmental laws and regulations applicable to the development and implementation of the activities to be funded under this award. Environmental Assessment (EA): The Subrecipient agrees and understands that funded activities (whether conducted by the subrecipient or contractors) may require the preparation of an environmental assessment (EA) as defined by the Council on Environmental Quality's Regulations for implementing the Procedural Provisions of the National Environmental Policy Act (NEPA), found at 40 CFR Part 1500. An EA is a concise public document that briefly provides sufficient analysis for determining whether to prepare an environmental impact statement (EIS) or a finding of no significant impact for the proposed activity. If in completing an EA for a proposed activity, potential adverse environmental impacts are identified, the EA will serve as a vehicle for developing either alternative approaches or mitigation measures for avoiding or reducing the identified adverse environmental impacts.

Throughout the term of this award, the Subrecipient agrees that for any activity that is the subject of a completed Environmental Assessment (EA), it will inform NIJ of (1) any change(s) that it is considering making to the previously assessed activity; (2) any changed circumstances, such as a change in the project site's conditions; or (3) any significant new information. The Subrecipient will not implement a proposed change until NIJ, with the assistance of the Subrecipient, has determined whether the proposed change will require additional review under NEPA. Likewise, in the case of new circumstances or information arising, NIJ, with the assistance of the Subrecipient, will determine if any additional environmental impact analysis is necessary. The approval will not be unreasonably withheld as long as any requested modification(s) is consistent with eligible program purposes and found acceptable under an NIJ-conducted environmental impact review process.
