Program Project Coordinator, Senior (Transit Purchasing Section)
Broward County Transportation Department
1 North University Drive, Suite 3100A
Plantation, Florida 33324

RE: Letter of Authorized Dealers - DTI/UTC Equipment

This letter is to confirm that the following companies are authorized agents for sales, service and maintenance of DTI designed recording systems in the United States:

Securitas Electronic Security, Incorporated
3800 Tabs Drive, Uniontown, OH 44685
Contact: Ryan Morning
VP Western Region
858-245-4394 Cell
Ryan.Morning@securitates.com

DTI USA Inc.
2711 Centerville Road, Suite 400
Wilmington Delaware, 19808
Contact: Richard Johnson
Director
DTI USA Inc.
214-347-4904 Cell
richard.johnson@dti.com.au

Please note that the Mobileview branded "Penta" and "Penta L" series recorders are no longer for sale. However, these recorders which were previously sold to Broward County Transit are only a rebranded DTI MDR5 (Penta) or MDR5L (Penta L) recorder. Both DTI and Securitas are able to sell the DTI branded versions of these exact same recorders, and are also able to service and maintain any of these recorders, as well as service and maintain the back office system.

The warranty of all Penta/Penta L and MDR5/MDR5L products will be covered by DTI if the warranty has not expired.

DTI systems serviced by non-authorized agents would void any warranty. In addition, as no commercial arrangements or technical evaluations have been undertaken with non-authorized agents, out of warranty support such cannot be guaranteed.

Securitas (previously Kratos Public Safety & Security Solutions, Inc.) has been an authorized agent for DTI since 2013. For further information, please find below links to key press releases.
