AND

CITY \_\_\_\_\_, a municipal corporation located in Broward County, Florida, and organized and existing under the laws of the State of Florida, its successors and assigns, hereinafter referred to as "CITY";

W I T N E S S E T H:

WHEREAS, Section 316.006(2), Florida Statutes, grants municipalities original jurisdiction over all streets and highways located within their boundaries, except state roads, and grants said cities authority to place and maintain traffic control devices which conform to the Manual on Uniform Traffic Control Devices published by the Federal Highway Administration and with Roadway and Traffic Design Standards promulgated by the Florida Department of Transportation upon all streets and highways under their original jurisdiction, as they shall deem necessary, to indicate and to carry out the provisions of Chapter 316 or to regulate, warn, or guide traffic; and

WHEREAS, \_\_\_\_\_ presently has a traffic engineering function authorized and directed to carry out the matters authorized by Section 316.006(2), Florida Statutes; and

WHEREAS, the Broward County Charter, Section 1.050, provides that county government shall have the power and authority to assume and perform all functions and obligations now or hereinafter performed by any municipality whenever such municipality shall request the performance or transfer of the function to the COUNTY; and

WHEREAS, it has been determined that a centralized agency responsible for the installation, operation and maintenance of traffic control devices, throughout Broward County, Florida, is the most economical and efficient means of providing such needed service; and

WHEREAS, as part of this centralization of function, CITY and COUNTY have agreed to transfer the functions, authority, powers, responsibilities and duties of the CITY'S Traffic Engineering function pertaining to the planning, installation, operation and maintenance of traffic control devices to the COUNTY pursuant to terms and conditions of this Agreement; and

WHEREAS, as a part of the consideration for this Agreement, CITY has agreed to transfer to COUNTY certain equipment, materials and supplies enumerated hereunder; and

WHEREAS, Section 125.01(3), Florida Statutes, authorizes the COUNTY to enter into agreements with other governmental agencies within or outside the boundaries of the COUNTY for the performance of the COUNTY of certain of the CITY'S authorized functions.

NOW, THEREFORE, in consideration of the premises and mutual covenants hereinafter contained, the parties do agree as follows:

The COUNTY shall be fully responsible for all repair and maintenance concerning the items delineated in paragraphs (a) through (o) above, but it is understood and agreed that CITY shall have the duty and obligation to notify COUNTY promptly when CITY receives actual notice of any and all defects, malfunctions, failings or imperfections in the installation or operation of traffic regulation equipment, signs, and signals as encompassed under this Agreement or if any said equipment, signs and signals are in need of repair, replacement or maintenance. If the COUNTY Traffic Engineering Division determines that said encroachment agreement will constitute a traffic hazard, then such encroachment agreement shall not be executed. With regard to existing encroachment agreements, the COUNTY Traffic Engineering Division shall review the same at the request of the CITY or may review the same at its own option in order to determine whether or not the same constitutes traffic hazards.
- 2.2 If the COUNTY Traffic Engineering Division does so determine that any of such encroachment agreements do in fact constitute a traffic hazard or hazards, the COUNTY Traffic Engineering Division shall notify the CITY, and CITY shall take such steps as may be necessary to effect the removal of such encroachments at CITY'S expense.
